Scrum, Sprint, Prototyping (Figma), Responsive Design

CAREER HISTORY

Axosnet

Mar 2024 - Present

- Ongoing implementation of product enhancements to improve stability and scalability
- Code refactoring to boost performance and maintainability
- Development and maintenance of the user self-registration module in the company's main product
- API migration to .NET 8, enhancing response times and security
- Led the migration of AxosMoney Web app to React 18, applying modular architecture and advanced hooks
- Deployment coordination and performance optimization across frontend and backend
- Level 3 support for critical issues reported by Customer Service; debugging and resolving complex product incidents

Axis Tecnología S.A. de C.V.

Jul 2022 - Feb 2024

- Implemented MobX for efficient state management in React applications
- Applied Domain-Driven Design (DDD) and Microservices architecture with .NET Core 6.0
- Developed PDF reports (MigraDoc) and Excel templates (ClosedXML)
- Optimized queries and managed large datasets using LINQ and BulkExtensions
- Created and deployed APIs for remote data insertion into Contpaqi via IIS
- Automated billing processes through XML parsing with XDoc
- Integrated email delivery services using SendGrid
- Refactored a monolithic frontend into modular components using JavaScript

EDUCATION

B.S. in Software Engineering

Aug 2019 - Dec 2023

Universidad Autónoma de Nuevo León

LANGUAGES

- English (B2), Spanish (Native)
